COMPANY PROFILE

From Korea *to the world*

Connecting People with People

Company overview

SDC International is a trading and sourcing company based in South Korea. We help overseas buyers find suitable suppliers and work directly with manufacturers to establish what they can supply.

For industrial purchases, we can act as the buyer’s agent and compare offers on their behalf. For professional skincare, we source and export selected Korean products. We agree our role, the terms of supply and the documents required with each client at the outset.

Markets

South Korea	Headquarters and sourcing
United Kingdom	Professional skincare
Poland	Industrial procurement

Business areas

Trade and strategic sourcing

We approach manufacturers, compare quotations on like-for-like terms and arrange samples for review. When appointed as your buying agent, we discuss specifications and commercial terms on your behalf.

Professional Korean skincare

We select professional skincare ranges for hydration, skin barrier care and cosmetic aftercare. We work with manufacturers on samples, product information, packaging and terms of supply for your market.

Industrial chemicals

We discuss grades, packaging and delivery terms with suppliers. Where relevant, we obtain technical data sheets, safety data sheets and certificates of analysis for your review.

International business development

We explore whether a product suits the intended market and help both parties agree a proposal. As an order progresses, we liaise with the buyer, manufacturer and freight forwarder on outstanding questions.
